RE: HydoCAD Stormwater Modeling System

Dear Mr. Smart

Thank you for the opportunity to review the above referenced program. We have reviewed your model documentation and compared the output with results obtained from HEC-1.

Based on our review, your model is an acceptable hydrograph and routing method for use in District Management and Storage of Surface Waters and Stormwater permit applications. However, the District cannot specifically endorse your program or certify the program results.

Thank you for the opportunity to comment on your program. Enclosed is a revised copy of the District's list of approved computer programs. Feel free to contact me at (904) 730-6270 if you have any questions.

Sincerely,

David Miracle, P.E.
Department of Resource Management
