

Course Description

This course is designed for those who already have some familiarity with the modeling program. The workshop will cover the basics of hydrology, how the program works, acceptable ways of modeling water structures, different fluid dynamic formulas, etc. We will review the assumptions of modeling surface water flows, with special attention to gauging the validity of those assumptions. (How to avoid the “garbage in, garbage out” syndrome.)

Format

The *two-day program* will include a combination of live presentation, illustrated slides, prerecorded materials, and software exercises. It also includes a hands-on model project from scratch added to each section. Attendees will receive printed copies of the entire program plus a free copy of the HydroCAD Owner’s Manual. The *one-day program* will include a combination of live presentation, illustrated slides, prerecorded materials, and software exercises. At each session attendees will receive printed copies of the entire program plus a free copy of the HydroCAD Owner’s Manual.

Who Will Benefit

This course will sharpen modeling skills that are essential for civil engineers, regulatory and enforcement personnel, stormwater managers, and consultants.

- ✓ You will acquire new skills for applying today’s technology
- ✓ You will produce a better product for your customers
- ✓ You will save time and money
- ✓ Upon completion of the program attendees will receive a “Certificate of HydroCAD Training”

Your instructors will be:

Gerald J. Lang, PE

Rockingham County Conservation District
Retired USDA NRCS State Conservation Engineer

Edwin L. Minnick, PE

Rockingham County Conservation District
Retired USDA NRCS State Conservation Engineer
and HydroCAD user since 1992

Karen Coffey, Training & Support Coordinator
HydroCAD Software Solutions LLC

With Video Presentations by:

Peter Smart, HydroCAD Developer

Two-day session

Laptop required!

Chelmsford, MA

Tuesday & Wednesday, June 13/14

8:00 AM to 4:00 PM each day

Radisson Hotel & Suites

10 Independence Drive

Chelmsford MA
